

Privacy policy and Secure shopping

Moyne Exhibitions is committed to ensuring that your privacy is protected. This privacy policy explains what sort of information we collect about you, how we use the information we collect about you. It also sets out the procedures that we have in place to safeguard your privacy.

By submitting your information (please see paragraph 1 below) you consent to the use of that information as set out in this policy. If we change our privacy policy, any changes will be posted on this page without notification.

Questions regarding this privacy policy should be directed to info@moyne.co.uk

What personally identifiable information do we collect about you?

We collect information on our website users in several ways, including through cookies and customer registration. Our information collection includes the following:

We require registering users of our website and owners to provide us with a name, telephone number, email address and postal address.

If you purchase a product through our website we will require you to provide us with the above information plus your payment details.

Like most internet websites, we use "cookies," small files that websites use to store information on your computer. The cookies that we use are removed when you shut down your web browser and cannot be seen by any other website. We may also use cookies to track users as they travel through our website - for instance, we might use cookies to count the total number of unique users who are accessing the website over a particular period of time.

What do we do with the information we collect?

We use personal information to provide you with the services and goods you have requested.

With whom do we share the information we collect?

We do not share your information with any third parties, individuals or companies. We will share your personally identifiable information if required by law to do so, including in response to legal processes, such as a court order or subpoena, or to comply with other federal, state or local laws.

Secure online shopping at customer.moyne.co.uk

All website activity that incorporates your personal details is securely encrypted using Secure Socket Layer (SSL) technology. SSL technology prevents you from inadvertently revealing personal information using an insecure connection.

You will know when you are in secure mode as your browser will display a padlock symbol. This will happen as soon as you are required to login at the checkout page. i.e. before you enter any personal or payment details.

By clicking on the padlock symbol, you can check that the SSL certificate for the website is valid and in date. Secure mode means that all of your details are encrypted to help keep them secure. Encryption creates billions of code combinations to protect each transaction made on our site, so your card details cannot be viewed by anyone else using the Internet.

During payment, we also ask for your card billing address as an additional security check. New security checks like the card signature code protect your credit card details online. No credit or debit card details are stored once your order has been processed.

If you have any further concerns about security, please email info@moyne.co.uk
